1   NAME

bookshelf-listallfonts - list all fonts known to LuaTeX with "interesting" features

2   SYNOPSIS

bookshelf-listallfonts [-d] [-f FEATURES_FILE] [-x EXCLUDED_PATTERNS_FILE]
    bookshelf-listallfonts -h
    bookshelf-listallfonts -v
    bookshelf-listallfonts -m

3   DESCRIPTION

List all fonts known to LuaTeX adding "interesting" features to the listing.

The script queries luaotfload databases and outputs the list of fonts and features as a tab-separated stream with two field: font name+feature name, and LuaTeX loading command. This form is suitable for *mkfontsel.pl*(1) command from the *bookshelf* package.

We always include default features, `+clig;+liga;+tlig`.

It is recommended to issue

```
luaotfload-tool --update --force
```

before running the script.

4   OPTIONS

-d

    Print debug information on the standard output.

-f *FEATURES_FILE*

> Use patterns in the *FEATURES* file instead of the default ones.

-x *EXCLUDED_PATTERNS_FILE*

> Exclude patterns (font paths and features or combinations) listed in *EXCLUDED_PATTERNS_FILE*.

-v

> Print version information

-h

> Print usage information

-m

> Print manual page
